APPENDIX No. 4.

OFFICE OF THE MAYOR.

Philadelphia, April 17, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to transmit a communication from the Director of the Philadelphia Museums, asking for an appropriation of one hundred thousand dollars for installing the various collections made by him at the Paris and Pan-American Expositions.

Respectfully,

SAMUEL H. ASHBRIDGE,

Mayor.

—
Philadelphia, April 11, 1902.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—On behalf of the Board of Trustees of the Philadelphia Museums, I beg to call your attention to the fact that this institution has secured from different governments which exhibited at the Paris and Pan-American Expositions extensive collections representing an initial cost of nearly three million dollars. The collections have been brought to the City, but in order to render them available to public inspection provision is necessary for their classification, installation and maintenance. The closest estimates show that this work will require the expenditure of one hundred thousand (100,000) dollars. In view of the unique character and valuable nature of the material, unequalled among the possessions of any other city in the world, I earnestly request that an appropriation of the amount mentioned be made by your Honorable Body for the purposes indicated.

Respectfully,

W. P. WILSON,

Director Philadelphia Museums.

Philadelphia, April 11, 1902.

HON. SAMUEL H. ASHBRIDGE,
Mayor of Philadelphia.

SIR:—I have the honor to hand you herewith a formal request to Select and Common Councils of the City of Philadelphia that the sum of one hundred thousand (100,000) dollars be appropriated to the Philadelphia Museums for the purpose of installing, caring for and making available to public inspection the collections secured for the City by the Philadelphia Commercial Museum.

Trusting that your Honor will transmit this request in due course to Councils, I have the honor to be,

Your obedient servant,

W. P. WILSON,
Director.

APPENDIX No. 6.

OFFICE OF THE MAYOR.

Philadelphia, April 17, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to transmit herewith a communication from the Director of Public Works, asking an additional appropriation to meet deficiencies in the several Bureaus under his jurisdiction, and to ask that proper reference be made and prompt action taken thereon.

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, April 16, 1902.

HON. SAMUEL H. ASHBRIDGE,
Mayor of Philadelphia.

DEAR SIR:—I have the honor to submit statement of amounts required to meet deficiencies in the several Bureaus of this Department for the current year. The de-

iciencies arise from the fact that in reporting the appropriations for the year 1902 and to enable the amounts appropriated to come within the limits of the law, the estimates made by this Department were reduced to such an extent that the appropriations to some of the Bureaus is insufficient to meet requirements for maintenance and prosecution of work.

City Ice Boats.

Item 1. For repairs and equipment of boats, three thousand (3,000) dollars.

This additional amount will be required to make necessary repairs to machinery, wheels and houses and sheathing the decks of Boats Nos. 1 and 3 with new material.

Bureau of Highways.

Item 5. For repairing, altering and extending sewers and inlets, fifteen thousand (15,000) dollars.

Item 7. For general repairs to bridges, one hundred and twenty-five thousand (125,000) dollars.

This amount is absolutely needed and it is very important that Councils appropriate the sum asked for. The great floods which occurred during the early part of March severely damaged many of our small bridges, and to put them in proper condition will cost approximately twenty-four thousand (24,000) dollars. The estimated cost of painting the bridges spanning the Schuylkill river, painting the smaller bridges and for other general repairs which are absolutely needed, is one hundred and one thousand (101,000) dollars.

Item 17. For curved curbing, fifteen thousand (15,000) dollars.

Item 20. For emergencies, ten thousand (10,000) dollars.

Item 23. For repairs to asphalt streets and repaving around fire hydrants and breaks in footways for other municipal purposes, to include patent pavements, twenty-five thousand (25,000) dollars.

Bureau of Surveys.

Item 4. For wages of employes, expenses, rent, furniture, tools and instruments, carriage hire and horse keep and incidentals in the fourteen Survey Districts, seven thousand five hundred (7,500) dollars.

Bureau of Water.

The estimates of the additional sums required by the Bureau of Water for the current year have been made as close as possible, and the figures given are such as are absolutely required.

The sums named for wages are based upon the continued employment of the present force without providing for an increase.

Item 2. For the purchase of coal, two hundred and eighty-three thousand (283,000) dollars.

Item 3. For the purchase of oil, lubricants, paints, brushes, wood and coke, five thousand (5,000) dollars.

Item 4. For wages of mechanics' helpers and other workmen at the City Construction and Repair Shop, ten thousand (10,000) dollars.

Item 6. For the purchase of hardware, bolts and nuts, four thousand (4,000) dollars.

Item 3. For repairs to boilers, five thousand (5,000) dollars.

Item 8. For the purchase of chandlery, two thousand (2,000) dollars.

Item 9. For the purchase of wrought iron pipe and fittings, two thousand (2,000) dollars.

Item 12. For the purchase of forage, three thousand (3,000) dollars.

Item 13. For hauling water pipe and machinery, one thousand (1,000) dollars.

Item 14. For the purchase of cement, one thousand (1,000) dollars.

Item 15. For the purchase of iron and steel, one thousand five hundred (1,500) dollars.

Item 16. For the purchase of bricks, blocks, lime, sand and building stone, three thousand (3,000) dollars.

Item 17. For the purchase of electric supplies, five hundred (500) dollars.

Item 18. For repairs to roofs, one thousand (1,000) dollars.

Item 20. For the purchase of brass castings, expansion metal and lead coating, three thousand (3,000) dollars.

Item 21. For the purchase of stationery, engineer's supplies and printing, three thousand (3,000) dollars.

Item 24. For the purchase of horses and horse shoeing, one thousand (1,000) dollars.

Item 25. For the purchase of tapping and pipe cutting machines and fittings, one thousand (1,000) dollars.

Item 29. For asphalt and granolithic paving and repairs thereto, two thousand (2,000) dollars.

Item 30. For advertising, office supplies, text books and incidentals, one thousand (1,000) dollars.

Item 31. For the purchase of special articles, small stores, repairs to tools, pipes, pavements, etc., two thousand five hundred (2,500) dollars.

Item 32. For the purchase of lead pipe, block tin and sheet lead, five thousand (5,000) dollars.

Item 33. For emergencies, five thousand (5,000) dollars.

Item 40. For wages of mechanics, laborers and other workmen employed upon repairs to machinery and the maintenance of and repairs to buildings, grounds and reservoirs, etc., eighty-eight thousand (88,000) dollars.

Item 41. For the wages of mechanics, drillers, laborers and other workmen connected with repairs to and improvement of the distribution and the laying of service mains, etc., one hundred and twenty thousand (120,000) dollars.

Item 42. For the purchase of iron water pipe, special castings and pig lead, fifty thousand (50,000) dollars.

Item 43. For the purchase of iron, steel and malleable castings, fifteen thousand (15,000) dollars.

Item 44. For the purchase of gum goods and packing, eight thousand (8,000) dollars.

Item 45. For the purchase of brass fittings, cocks and valves for steam and water, six thousand five hundred (6,500) dollars.

Item 46. For the purchase of lumber, seven thousand five hundred (7,500) dollars.

Recapitulation.

City Ice Boats	\$3,000
Bureau of Highways	190,000
Bureau of Surveys	7,500
Bureau of Water	640,500
	<hr/>
	\$841,000

I respectfully request that you submit this matter to Councils for their consideration and with the recommendation that the additional amounts asked for by this Department be appropriated.

Director.

APPENDIX No. 7.

OFFICE OF THE MAYOR.

Philadelphia, April 14, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to transmit herewith a communication from the Director of the Department of Public Works, forwarding a report from the Chief of the Bureau of Surveys, and a draft of "An Ordinance to authorize the payment of certain sums to property owners along the easterly side of Delaware avenue between Vine and Green streets, as an adjustment of the amounts of damages on account of the widening of said avenue to a least width of one hundred and fifty feet, as laid down upon the confirmed plan of the City."

Under an ordinance of your Honorable Bodies of April 1st, 1899, authorizing the opening of the widened Delaware avenue from Vine to Green streets, the Mayor was authorized and empowered to negotiate with property owners to adjust the amount of damages to be paid on account of said opening, in pursuance whereof the matter has been thoroughly gone over by the Chief Engineer of the Bureau of Surveys, he now recommends the payment, in settlement of all claims, of two hundred and fourteen thousand seven hundred and thirty-six (214,736) dollars.

I have the honor to ask that this matter be properly referred and prompt action taken thereon.

Respectfully,
SAMUEL H. ASHBRIDGE,
Mayor.

—

DEPARTMENT OF PUBLIC WORKS.

Philadelphia, April 10, 1902.

HON. SAMUEL H. ASHBRIDGE,
Mayor of Philadelphia.

DEAR SIR:—In pursuance of the terms of the ordinance of April 1, 1899, authorizing the opening of the widened Delaware avenue, from Vine to Green streets, in which it is provided "That the Mayor of the City of Philadelphia is authorized and empowered to negotiate with property owners to adjust the amount of damages to be paid on account of said opening, or to take such other lawful means to determine the amount of damages to be paid, and report to Councils the result of such negotiations as early as possible," the matter has been gone over thoroughly with Mr. George S. Webster, Chief Engineer of Bureau of Surveys, and I make final report as follows:

Careful surveys were made of the properties between Vine and Green streets, an examination was made of the piers and buildings affected by the widening, and estimates of the damages prepared.

The basis of adjustment as far as possible was identical with that used in the settlement of damages for the widening of Delaware avenue, between Vine and South streets, and provided for the payment of a sum sufficient to put the owner of the property in as good a condition with reference to the new bulkhead line as they then were in reference to the old bulkhead line. This provided for the payment of the sum of \$1.15 per square foot for the area of pier taken and also the cost of erecting buildings beyond the new bulkhead line to answer the same requirements as the existing buildings upon the piers. The property owners are to agree to dedicate the portions of Delaware avenue taken by reason of the widening and to release the City from claims for damages by reason of the change of grade.

In addition, upon the expressed desire of the various owners to construct a timber bulkhead along the established bulkhead line, which extended a considerable distance further into the river than the easterly line of the proposed avenue, the Department considered it advisable to pay to them a sum not to exceed \$40 per running foot for the cost of such timber bulkhead, which would relieve the City of an expense approximating \$100 per foot for the construction of a concrete bulkhead. This was done with the express understanding that no payment should be made on account of this work until after its completion and acceptance by the Department.

Active negotiations with the property owners were begun in January, 1901. Arrangements for settlements have been made with all the owners after conferences at this office.

Agreements were reached and recommendations for settlements are made upon the following figures:

Pennsylvania R. R. Co. and leased properties.....	\$71,400
Philadelphia and Reading R. W. Co. and North Penna. R. R. Co.....	96,533
Philadelphia & Reading R. W. Co. (Knickerbocker Ice Co.).	17,829
Estate of Alexander Kerr.....	15,583
David M. Ellis.....	13,391
<hr/>	
Total	\$214,736

I enclose herewith draft of ordinance providing for the payment of various sums to property owners affected, in settlement of their claims for damages, and embodying the conditions of payment. Also copies of the correspondence relating to settlements and general plan of the proposed widening.

Yours respectfully,

WM. C. HADDOCK,

Director.

THE PENNSYLVANIA RAILROAD CO.

Philadelphia, January 30, 1901.

MR. WILLIAM C. HADDOCK,

Director Department of Public Works.

DEAR SIR:—We have gone over the estimate of the damages to the railroad property on account of widening Del-

aware avenue, in accordance with the conversation we had in your office a few days ago.

We have arranged to move the present ferry house (at the foot of Vine street), bridge and pontoon out beyond the new bulkhead, as shown on blue print No. 7371, that we send you herewith, and to build a wooden bulkhead on the new bulkhead line from pier 16 to 21 and a pile screen along the south side of pier 21 for the purpose of holding the filling.

It will be necessary for us to bring a second-hand bridge from Camden and build a temporary ferry landing place between piers 16 and 17, as shown on the blue print, in order to keep up our traffic at Vine street, while this work is in progress, and our revised estimate will then stand as follows:

482 lin. ft. bulkhead between Piers 16 and 21, at \$40.	\$19,280
97 lin. ft. pile screen along south side Pier 21, at \$10.	970
15,798 sq. ft. new piers from Pier 17 to 20. at \$1.	15,798
Moving present ferry house and racks.	21,650
Building a temporary ferry house.	7,570
	<hr/>
	\$65,268

This is with the understanding that the City will build their bulkhead across the foot of Vine street at their own expense, which I understood Mr. Webster to say the other day they preferred to do.

In this connection, however, we would recommend that you build a timber bulkhead at this place instead of concrete, as it will be much better on account of the shocks it may receive from the ferry boats. We could build this for you at \$40 per linear foot, if you desire us to do so. Vine street at this place is 110 feet wide and a wooden bulkhead across the foot of Vine street would cost \$4,400 in addition to the above.

These figures for removing the house and building a temporary one are from actual proposals that we have received from some of our contractors, since the subject was up before you last week.

Respectfully,

(Signed) WM. H. BROWN,
Chief Engineer.

Director's Office.

Philadelphia, July 9, 1901.

MR. WM. H. BROWN,

Chief Engineer Penna. R. R. Co.

DEAR SIR:—I desire to acknowledge receipt of your letter of January 30th, containing an estimate of the amount of damages that will be suffered by the Pennsylvania Railroad Company, and the property leased by that Company, on the easterly side of Delaware avenue, between Vine and Green streets, by reason of the widening of the same to its full width of 150 feet.

The properties affected are as follows:

Vine St. Ferry, P. R. R. Co. lessee.

Joseph Bacon, *et al.*, P. R. R. Co. lessee.

Penna. R. R. Co., north of Bacon's property.

Callowhill street pier, P. R. R. Co. lessee.

By comparison of your figures with the revised figures prepared by the Bureau of Surveys, I find that there is very little difference, and am therefore prepared to recommend a settlement, on the basis of \$65,000 for the following items included in your letter of January 30th:

The bulkhead between the south side of Pier 21 North and the north side of City Pier at Vine street, sheet piling along the south side of Pier 21 North to retain the filling, the replacing of areas of Piers 17 to 20 North taken by the widening of the avenue, moving and reconstructing the present Ferry House and racks east of the present location on City property, building and removing temporary ferry house; and will also recommend an additional sum of \$4,400 for that portion of the bulkhead across the foot of Vine street, the adjustment to be made upon the following basis:

The City of Philadelphia to pay to the Pennsylvania Railroad Company the sum of \$69,400 as the amount necessary to do the work above itemized.

The Pennsylvania Railroad Company to enter into an agreement, satisfactory to the City Solicitor, that it will, within 60 days after the settlement, begin to construct the necessary bulkhead along the bulkhead line between the south side of Vine street and the south side of City Pier at Callowhill street, with the necessary sheet piling along the south side of the pier at Callowhill street; and also to begin the reconstruction of the slip, ferry house, and other buildings on City property at the foot of Vine street in a location east of Delaware avenue, and in a condition equal to that which now exists.

The plan for all the above work to be submitted for approval to the Director of the Department of Public Works prior to its commencement; the work of construction to be pushed vigorously to completion.

Also, to waive all claim by reason of the taking of a portion of the City Pier at the foot of Callowhill street, leased by the Company and required for the widening of the avenue, and for all buildings taken and removed from this pier, within the lines of the avenue.

The Pennsylvania Railroad Company also agree to provide an opening in the bulkhead through which the City sewer at the foot of Vine street may discharge, and to permit the City to build a sewer to discharge at this opening; and to provide for the discharge of other sewers or drains that exist along this section of the avenue.

The Company also to release the City from all claims for damages by reason of the taking of the land owned or leased by it; for the widening or change of grade of said avenue, or for property taken or buildings destroyed by said widening, and from all consequential damages incident to the above work.

And the said Company shall furnish to the City Solicitor Deeds of Dedication of the bed of Delaware avenue, acceptable to him at the time of settlement, from the Pennsylvania Railroad Company and the Bacon Estate.

Yours truly,

(Signed)

WM. C. HADDOCK,

Director.

THE PENNSYLVANIA RAILROAD CO.

Philadelphia, October 9, 1901.

MR. WILLIAM C. HADDOCK,

Director Department of Public Works.

DEAR SIR:—In answer to your letter of July 9th, in regard to widening Delaware avenue, north of Vine street, this reply has been delayed to ascertain whether we could secure the tract of land from the Bacon Estate, but the owners of the lot ask such an exorbitant figure that we cannot afford to buy it at their price, and the only thing we can do towards giving you a definite answer in regard to damages between Vine and Green streets, occasioned by the opening of Delaware avenue, would be to deduct from our estimate the amount of money that was proposed to spend in front of the Bacon Estate, and let the City undertake to settle with the owners thereof themselves.

The Pennsylvania Railroad Company is willing to release the City from all claims for damages by reason of the taking of the land owned or leased by it for the said widening, or for property taken or buildings destroyed, and from all consequential damages incident to the above work, for the sum of \$67,600. This will include:

(1). The bulkhead between the south side of Pier 21 and the north side of City Pier at Vine street, to be built of ordinary piles and wooden cribwork.

(2). Sheet piling along the south side of Pier 21 to retain the filling.

(3.) The replacing of areas of piers from Piers 17 to 20 North, taken by the widening of the avenue.

(4.) Moving and reconstructing the present ferry house and racks, east of the present location on City property.

(5.) Building and removing a temporary ferry house, which would be necessary to keep our present ferry running while they move the present ferry house to the new location.

This also includes the sum of \$4,400 for that portion of the bulkhead across the foot of Vine street, but does

not include the 1,800 square feet of pier in front of the Bacon property, which we have estimated at \$1.00 per square foot, amounting to \$1,800, for which the City will have to settle direct with the Bacon heirs.

The Pennsylvania Railroad Company will enter into an agreement satisfactory to the City Solicitor, that it will, within 60 days after the settlement, begin to construct the necessary bulkhead along the bulkhead line between the south side of Vine street and the south side of City pier at Callowhill street, with the necessary sheet piling along the south side of the pier at Callowhill street, also, to begin the reconstruction of the slip, ferry house, and other buildings on City property at the foot of Vine street in a location east of Delaware avenue and in a condition equal to that which now exists.

The plans for all the above work to be submitted for approval, to the Director of the Department of Public Works, prior to its commencement; the work of reconstruction to be pushed vigorously to completion.

Also, to waive all claim by reason of the taking of a portion of the City pier at the foot of Callowhill street leased by this Company and required for the widening of the avenue, and for all buildings taken and removed from this pier, within the lines of the avenue.

The Pennsylvania Railroad Company also to agree to provide an opening in the bulkhead through which the City sewer, at the foot of Vine street, may discharge, and to permit the City to build a sewer to discharge at this opening, and to provide for the discharge of other sewers or drains that exist along this section of the avenue.

And, the said Company shall furnish to the City Solicitor, deeds of dedication of the bed of Delaware avenue acceptable to him at the time of settlement, from the Pennsylvania Railroad Company, exclusive of the Bacon estate.

Respectfully,

Chief Engineer.

MR. WILLIAM H. BROWN,
Chief Engineer, Penna. R. R. Co.

DEAR SIR:—Yours of the 9th inst. submitting proposition from the Pennsylvania Railroad upon the subject of the settlement of damages, by reason of the widening of Delaware avenue, from Vine street to Green street, received.

I find that the propositions, stated in your letter are in conformity with my letter of July 9th, with the exception of the settlement for the land owned by the Bacon estate, 30 feet frontage, immediately north of Vine street.

In your letter deduction has been made for the portion of pier taken upon the property of the Bacon estate, but the allowance of \$1,200 for bulkhead construction included in your former estimate, has not been deducted.

Since it is understood that settlement for all damages upon the Bacon property be made directly with the owners of this property by the City, this allowance, viz., \$1,200, in addition to the \$1,800 deducted by you, and included in your former estimate, should be made by the Railroad Company, making the total sum \$66,400, instead of \$67,600. This settlement will therefore include the bulkhead construction by the Railroad Company between the south side of Pier 21 North and the south side of City pier at Vine street, excepting, however, that portion 30 feet in length in front of the Bacon property. All other conditions are as outlined in your letter under date of October 9th, 1901.

Inasmuch as Councils will probably provide for the payment of damages in two parts, the first covering damages for the property taken; second, for the construction of the bulkhead and sheet piling, the latter to be paid for after the completion of the construction the agreement

with the Pennsylvania Railroad Company will be worded as follows:

"That it will, within sixty (60) days after the payment of the sum fixed as a measure of damage for property taken, begin to construct the necessary bulkhead along the bulkhead line across Vine street and from the northern property line of the Joseph Bacon estate 30 feet north of the north side of Vine street to the south side of City pier at Callowhill street, with the necessary sheet piling along the south side of pier at Callowhill street, it being agreed that the balance of the sum agreed upon in settlement shall be paid after the completion of the work of bulkhead and sheet piling construction, in a manner satisfactory to the Director of the Department of Public Works."

Also, to waive all claim by reason of the taking of portions of City piers at the foot of Vine street and Callowhill street; and also, for the taking of the leasehold of Pier No. 16 North, belonging to Joseph Bacon, et al., Trustees, and leased by the Company, and required for the widening of the avenue; for all buildings taken and removed from these piers, within the lines of the avenue.

Awaiting an early reply, I am,

Yours respectfully,
(Signed) WM. C. HADDOCK,
Director.

THE PENNSYLVANIA RAILROAD COMPANY.

Philadelphia, October 23, 1901.

WILLIAM C. HADDOCK, Esq.,

Director Department of Public Works.

DEAR SIR:—In answer to your letter of October 22d, in regard to the settlement of damages by reason of the widening of Delaware avenue, between Vine and Green streets, I think the terms therein stated are now all correct, and the settlement can now go ahead on that basis.

We have no objection to you placing the clause in the

agreement in regard to making payments for damage to property first, and holding the balance of the money until the work is completed.

Respectfully,
(Signed) WM. H. BROWN,
Chief Engineer.

Philadelphia, January 30, 1902.

MR. WILLIAM H. BROWN,
Chief Engineer, Penna. R. R. Co.

DEAR SIR:—In the matter of negotiations with property owners with a view of determining the amount of damages for the widening of Delaware avenue, between Vine and Green streets, there is considerable delay in coming to terms with the Bacon estate north of Vine street, which property I understand is leased by your Company. I write to ask, upon what terms the Pennsylvania Railroad Company will undertake to secure for the City the dedication of the portion of the Bacon estate within the lines of the widened Delaware avenue, with a release of damages from the Bacon estate as owners, and from the Railroad Company as tenants.

Any proposition that you may make to include the Bacon estate in the settlement made with the Pennsylvania Railroad Company will be considered as tentative, and dependent entirely upon future ordinance of Councils for confirmation.

Yours truly,
(Signed) WM. C. HADDOCK,
Director.

WILLIAM C. HADDOCK, Esq.,
Director, Department of Public Works.

DEAR SIR:—At the request of Mr. George S. Webster, Chief Engineer, we have taken up the matter of settling

with the Bacon estate at the foot of Vine street, and find that they are now willing, for the sum of \$2,000 in money to be paid to them, to dedicate that portion of their property which will be required for the widening of Delaware avenue, immediately north of Vine street, so that if you will allow us \$1,800 for the pier and \$1,200 for the bulkhead and \$2,000 for the property that is to be dedicated to the City, making \$5,000 in all, for the Bacon estate, in excess of the estimate that we gave you in October last, we can close this matter out.

Please answer if you wish us to do so, and then have the City of Philadelphia make one settlement between Vine and Callowhill streets.

Respectfully,
(Signed) WM. H. BROWN,
Chief Engineer.

Philadelphia, April 2, 1902.

MR. WILLIAM H. BROWN,
Chief Engineer, Penna. R. R. Co.

DEAR SIR:—Replying to yours of March 27th, in which you propose, for the sum of \$5,000, to be paid by the City, to include the property of the Bacon estate in the settlement to be made with the Pennsylvania Railroad Company, would state I have gone carefully over this matter and think it advisable to settle with your company, making the allowance of \$5,000 for the Bacon estate.

I therefore accept your proposition, which will make the total settlement with the Pennsylvania Railroad Company, \$71,400.

Yours respectfully,

MR. WILLIAM C. HADDOCK,

Director, Department of Public Works.

DEAR SIR:—In the matter of proposed widening of Delaware avenue, from Vine to Green streets.

I beg to advise you that I am authorized by President Harris to say that the Philadelphia and Reading Railway Company will agree to accept as its measure of damages for the properties and bulkheads adjacent, at piers 23, 24 and 25, being 37,059 square feet of pier and bulkhead, \$42,618.00, and buildings upon the same, \$10,264.00. Total, \$52,882.00.

For the property of the North Penn Railroad, being 12,021 square feet of solid cribbing, \$13,824.15; 4,933 square feet pile platform, \$1,377.90; building on the same, \$3,089.00. Total, \$18,291.05. Being a grand total of \$71,173.05.

Inasmuch as the easternmost line of the widened Delaware avenue does not coincide with the bulkhead line as authorized by the Board having charge of the harbor improvements, the Philadelphia and Reading and the North Penn Railroad Companies desire to avail themselves of the opportunity of constructing a bulkhead on the harbor line across the above-named properties, at their own cost and expense, the City paying therefor the sum of \$40 per linear foot, the length of these bulkheads being, for the Philadelphia and Reading Railway Co.'s property, about 595 feet, and across the North Penn Railroad Company's property, about 160 feet more or less.

Yours truly,

THEODORE VOORHEES, Esq.,

DEAR SIR:—I desire to acknowledge receipt of your letter of the 11th instant relative to damages that will be

suffered by the Philadelphia and Reading Railway Company, and the property leased by that company on the easterly side of Delaware avenue, between Vine and Green streets, by reason of the widening of the same to its full width of 150 feet.

The properties affected are registered as follows:

Philadelphia and Reading Railway Company.

North Pennsylvania Railroad Company.

City of Philadelphia, Noble st., Philadelphia and Reading Railway Company, lessee.

I find by comparison of figures that you offer to accept the measure of damages estimated by the Bureau of Surveys, and am therefore prepared to recommend a settlement on the basis of \$71,173.05 for the following items:

For the replacing of equivalent areas of piers Nos. 22, 23, 24, 25, 27 and 28 North, the moving of the present buildings included within the lines of the avenue, and taken by reason of the widening and reconstructing beyond the new bulkhead line.

Noting your desire to construct a bulkhead on the bulkhead line instead of having the City construct one on the easterly line of Delaware avenue, in addition I am also prepared to recommend that the sum of \$20,160 be paid to your company for the bulkhead to be constructed by you across the properties owned or leased by you, amounting to 424 feet across the P. & R. Ry. Co.'s property and 80 feet across the North Penn R. R. Co.'s property, in all 504 feet. In order to make a proper finish there should be included, to connect this bulkhead to City piers Nos. 21 and 29 North, adjoining your property to the north and south, an additional length of 80 feet, amounting to \$3,200, as shown on accompanying print.

A statement of these amounts follows:

For piers and buildings taken upon the properties mentioned, the sum of.....	\$71,173 05
For 504 feet bulkhead, at \$40.....	20,160 00
For 80 feet additional bulkhead on City property to connect with piers Nos. 21 and 29 north.....	3,200 00
	<hr/>
	\$94,533 05

The bulkheads to be constructed between the north side of Pier No. 21 North and the property line of the Knickerbocker Ice Co., about 12 feet south of Pier No. 26 North, and across the property of the North Penn Railroad Co. from a point about 17 feet south of Pier No. 27 North to the south side of the City pier 29 North (except so much as is now occupied by solid piers and where a bulkhead need not be built) with the necessary sheet piling along the sides of these piers to retain the filling.

The Philadelphia and Reading Railway Co. is to enter into an agreement satisfactory to the City Solicitor, that it will within 60 days after the settlement, begin to construct the necessary bulkhead along the bulkhead line between the north side of Pier 21 North, and the north property line of the Philadelphia and Reading Railway Company about 12 feet south of Pier 26 North; also from a point about 17 feet south of Pier 27 North to the south side of City Pier 29 North (except so much as is now occupied by solid piers, and where a bulkhead need not be built) with the necessary sheet piling along the sides of the piers to retain the filling.

The plan for all of the above work to be submitted for approval to the Director of the Department of Public Works, prior to its commencement; the work of construction to be pushed vigorously to completion. Also, to waive all claim by reason of the taking of a portion of the City pier at the foot of Noble street, known as Pier 29 North, leased by the company, and required for the widening of the avenue, and for all buildings taken and removed from this pier, within the lines of the avenue.

The Philadelphia and Reading Railway Company also to agree to provide openings in the bulkhead, through which the City sewers at Callowhill street, Willow street and Noble street may discharge, and to permit the City to build sewers to discharge at these openings, and to provide for the discharge of other sewers or drains that exist along this section of the avenue.

The company also to release the City from all claims for damages by reason of the taking of the land owned or leased by it, for the widening or change of grade in said avenue, or for property taken or buildings destroyed by

said widening, and from all consequential damages incident to the above work.

The said company shall furnish to the City Solicitor, deeds of dedication of the bed of Delaware avenue, acceptable to him, at time of settlement, from the Philadelphia and Reading Railway Company and the North Pennsylvania Railroad Company.

Yours truly,

Director.

DEAR SIR:—In the matter of widening Delaware avenue, between Vine and Green streets, replying to your favor of February 28th, I beg to advise you that I understand that in addition to the items named in your letter, there is a further matter of 200 linear feet of sheet piling on the north and south sides of Pier 25, and south of Pier 24 that will be necessary.

I am advised further by our Mr. Hunter, that you have agreed in a similar case with the Pennsylvania Railroad Co. to allow them \$10.00 per linear foot for such sheet piling. That will make \$2,000, which, added to the amounts that you advised me you are prepared to recommend, \$94,533.05, makes a total amount of \$96,533.05; and I beg to advise you I am authorized by President Harris to accept this sum in full settlement of our claim against the City by reason of the widening of Delaware avenue, between Vine and Green streets.

We will be prepared to enter into proper agreement and to begin this work as directed by you; the plan for the whole to be submitted for approval to you, in accordance with your letter.

I also note that we are to provide openings in the bulkhead through which the City sewers at Callowhill street, Willow street and Noble street may discharge, etc.

Yours truly,

DEAR SIR:—In the matter of the proposed widening of Delaware avenue, in the vicinity of Willow and Noble streets, I beg to advise you that our Chief Engineer has been in communication with Mr. Webster in reference to the damage that would result to this Company by reason of the widening of Delaware avenue, so far as the property, recently belonging to the Knickerbocker Ice Company, is concerned.

They have agreed upon the following figures:

6,851 sq. ft. solid crib, at \$1.15.....	\$7,878 65
456 sq. ft. platform, etc. (timber value).....	125 35
Buildings and machinery.....	6,425 00
85 feet $\frac{1}{2}$ of bulkhead, at \$40 per foot.....	3,400 00
Total.....	<u>\$17,829 00</u>

I beg to advise you this Company is ready to accept the above sum in full settlement for damages by reason of the widening of Delaware avenue across the property in question.

Kindly advise if this is satisfactory to the City, and oblige,

Yours truly,

MR. THEODORE VOORHEES,

First Vice-President, P. & R. Ry. Co.

DEAR SIR:—I desire to acknowledge receipt of your letter of the 12th inst., relative to damages that will be suffered by the property recently belonging to the Knickerbocker Ice Company, now the property of the Philadelphia and Reading Railway Company, on the easterly side of Delaware avenue, between Vine and Green streets, by reason of the widening of the same to its full width of 150 feet.

I find by comparison of figures that you offer to accept the measure of damages estimated by the Bureau of Surveys for the wharf, and the value of the buildings and machinery estimated by the Knickerbocker Ice Company, and that you included 85 feet of bulkhead at \$40 per foot, making a total of \$17,829.

I am prepared to recommend a settlement on the basis of these figures for the following items:

For the replacing of equivalent areas of Pier 26 North, the moving of the present buildings included within the lines of the avenue, and taken by reason of the widening, and reconstructing the same beyond the new bulkhead line.

Noting your desire to construct 85 feet of bulkhead on the bulkhead line instead of having the City construct one on the easterly line of Delaware avenue, I am prepared to recommend that the sum set aside for bulkhead construction, namely, \$3,400, be paid to your Company for this work, the time of payment to be as regulated by Councils.

The bulkhead mentioned above, it is understood, is to be constructed between the southern property line of the Knickerbocker Ice Co., about 12 feet south of Pier 26 North, and the property line of the North Penn Railroad Co., about 17 feet south of Pier 27 North.

The Philadelphia and Reading Railway Co., for the Knickerbocker Ice Co., to enter into an agreement satis-

factory to the City Solicitor, that it will, within 60 days after settlement, begin to construct the necessary bulkhead along the bulkhead line between the points named; the plans for all of the above work to be submitted for approval to the Director of the Department of Public Works prior to its commencement. The work of construction to be pushed vigorously to completion.

The Philadelphia and Reading Railway Co. also to agree to provide openings in the bulkhead through which City sewers emptying into this dock may discharge and to permit the City to build sewers to discharge at these openings; and to provide for the discharge of other sewers or drains that exist, discharging into this dock.

The Company also to release the City from all claims for damages by reason of the taking of the land owned or leased, for the widening or change of grade in said avenue, or for property taken or buildings destroyed by said widening, and from all consequential damages incident to the above work. The said Company shall furnish to the City Solicitor a Deed of Dedication of the bed of Delaware avenue, acceptable to him, at the time of settlement.

DEAR SIR:—In the matter of the proposed widening of Delaware avenue, from Vine to South street.

I will agree to accept as a measure of damage for the property and bulkhead adjacent to Pier No. 30, containing 9,210 square feet, ten thousand five hundred and ninety-one dollars (\$10,591), including the buildings upon the same.

As the easternmost line of the widened Delaware avenue does not coincide with the bulkhead line, I will avail myself of the opportunity of constructing a bulkhead on the harbor line crossing the above named property at my own cost and expense, the City paying me for the same at the rate of forty dollars (\$40) per linear foot, the length of this bulkhead being one hundred and twenty-nine (129) feet, more or less.

Yours very respectfully,

MR. DAVID M. ELLIS,
325 Walnut street.

DEAR SIR:—I desire to acknowledge receipt of your letter of the 14th inst., relative to the damages to your property on the easterly side of Delaware avenue, between Vine and Green streets, by reason of the widening of the same to its full width of 150 feet.

I find by a comparison of the figures, that you offer to accept the measure of damages estimated by the Bureau of Surveys, and am therefore prepared to recommend a settlement on the basis of \$10,591 for replacing an equivalent area of pier included within the lines of the avenue, and taken by reason of the widening, and reconstructing the same beyond the new bulkhead line.

I note your desire to construct a bulkhead on the bulkhead line, instead of having the City construct one on the easterly line of Delaware avenue, which is westward of the bulkhead line, I am therefore prepared to recommend that an additional sum of \$2,800 be paid to you for constructing the 70 feet of bulkhead necessary to be built upon your property to connect Piers 29 and 31 North.

A statement of the amount is as follows:

For piers and buildings taken upon your property, the	
sum of.....	\$10,591 00
For 70 feet of bulkhead.....	2,800 00
Total.....	<u>\$13,391 00</u>

It is understood that you will enter into an agreement, and give a bond with surety, satisfactory to the City Solicitor, that you will, within 60 days after settlement, begin to construct the necessary bulkhead along the bulkhead line between Piers 29 and 31 North, and also provide the necessary sheet piling along the sides of the piers to retain the filling. The plans for all this work to be submitted for approval to the Director of the Department of Public Works, prior to commencement. The work of construction to be pushed vigorously to completion.

You are also to agree to provide openings in the bulkhead through which existing sewers may discharge, and to permit the City to extend existing sewers to discharge at the openings, and to provide for the discharge of other sewers or drains that exist in front of this property.

You are also to release the City from all claims for damages by reason of the taking of land or buildings for the widening or change of grade in said avenue, and from all consequential damages incident to the above work.

You are also to furnish the City Solicitor a Deed of Dedication of the bed of Delaware avenue, acceptable to him at the time of settlement.

DEAR SIR:—As agreements have been reached as to the measure of damages suffered by the widening of Delaware avenue, between Vine and Green streets, with the single exception of the property of David M. Ellis, and as it is necessary for this Bureau to make a prompt report to the Director of Public Works, unless I hear from you further, I shall consider that the terms as expressed in

Philadelphia, June 24, 1901.

MR. GEORGE S. WEBSTER,
Chief Engineer, Philadelphia, Pa.

DEAR SIR:—Your favor of the 21st would have been answered sooner had I been in the City; as I understand, your proposition is that the City of Philadelphia shall pay me for the piers and buildings taken upon my property the sum of ten thousand five hundred and ninety-one dollars (\$10,951), and for the seventy (70) foot of bulkhead, twenty-eight hundred dollars (\$2,800); total, thirteen thousand three hundred and ninety-one dollars (\$13,391). That they will modify the form of agreement as per mine of the 14th.

I accept this amount, but I do not consider it a fair adjustment of the damage done, the case is simply this, it is either to take what the City offers or to be kept out of the funds for several years, and spend an amount as great as the difference between what she should pay and what she offers, therefore a citizen has no option in the matter.

Very respectfully yours,

DEAR SIR:—In reply to yours of the 5th inst., addressed to Mr. Samuel T. Kerr, Executor of Alexander Kerr's Es-

tate, in re widening Delaware avenue, I beg to say that the representatives of Alexander Kerr Estate will accept the offer of the City for the portion of the wharf taken, viz.: at the rate of \$1.15 per superficial foot and the cost of removing and replacing existing shed or building, provided payment of the same is made within six months from date hereof and the ground taken to be according to the present plans as furnished by the Survey Department.

MR. J. B. KINLEY,

Estate of Alex. Kerr, deceased.

DEAR SIR:—In reply to your letter of June 7th, 1901, relative to the amount of damages suffered by the Estate of Alexander Kerr, by reason of the widening of Delaware avenue between Vine and Green streets, I would state that the City's detailed estimate for this property is as follows:

13,550 sq.ft. of pier area taken at \$1.15..\$15,583.00

There is no shed upon that portion of the pier included within the lines of Delaware avenue as widened, therefore, no claim has ever been made by the Kerr Estate for buildings.

In consideration of the payment by the City of the sum before mentioned for pier area taken, it is understood that the estate of Alexander Kerr will furnish to the City Solicitor deeds of dedication of the bed of Delaware avenue acceptable to him at the time of settlement. And that the said Estate will also enter into an agreement with the City to release the City from all claims for damages by reason of the taking of the land owned or leased by it for the widening or change of grade in said avenue or for property taken or buildings destroyed by said widening and from all consequential damages incident to the above work.

As to making payment within six months of this date,

this will depend entirely upon what action Councils take after the recommendation is made to them by the Mayor.

That the leases of the Pennsylvania Railroad Company for the property of the City of Philadelphia at the foot of Vine street, and the foot of Callowhill street, and the lease of the Philadelphia and Reading Railway Company for the property of the City of Philadelphia at the foot of Noble street be affected only to the extent of occupying those parts of the properties included within the

bed of Delaware avenue as widened, together with the buildings thereon, conditioned upon the right of the City to enter upon the property for any necessary construction due to the widening of the avenue, when the Department of Public Works shall notify the railroad companies of such intention.

SECT. 3. That the City Solicitor be authorized to prepare agreements with the owners of property, with whom settlements are authorized, releasing the City for themselves and leased properties, from all claims for damages by reason of the taking of the land for the widening or change of grade or for property taken or destruction of buildings by the widening, that the owners shall furnish to the City Solicitor deeds of dedication of the bed of Delaware avenue, acceptable to him at the time of settlement, that the Pennsylvania Railroad shall furnish a deed of dedication from the heirs of the Bacon property and that the Philadelphia and Reading Railway Company shall furnish deeds of dedication of the North Pennsylvania Railroad Company and the Knickerbocker Ice Company's properties, and that the following conditions shall be attached to the agreements with the different owners: The Pennsylvania Railroad Company to agree to reconstruct the slip, ferry house and other buildings on City property at the foot of Vine street, in the location east of Delaware avenue, and in a condition equal to that which now exists; also, to agree to begin to construct within sixty (60) days after the settlement, a bulkhead along the bulkhead line between the south side of Vine street and the south side of City Pier at Callowhill street, with the necessary sheet piling along the south side of pier at Callowhill street; the plans for all of the above work to be submitted for approval to the Director of the Department of Public Works prior to its commencement, the work of construction to be pushed vigorously to completion; also, to agree that of the total sum of seventy-one thousand four hundred (71,400) dollars to be paid as a measure of damages, the sum of twenty-five thousand eight hundred and fifty (25,850) dollars shall be retained by the City of Philadelphia until the bulkhead and sheet piling construction shall have been completed, satisfactory to the Director of the Department of Public Works.

OFFICE OF THE MAYOR.

Philadelphia, April 4, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I herewith return to you, without my approval, "An Ordinance to extend the boundaries of Hunting Park, in the Thirty-third Ward," for the reason that no limit has been placed to the amount which may be expended under its provisions.

This action is in accord with my heretofore expressed views concerning the taking of land for various municipal purposes. It is my firm conviction that such ordinances should state the exact cost of the ground or place an approximate amount which should not be exceeded under subsequent legal proceedings. While in a general sense I favor the purchase and taking of ground for park and

square purposes, for the convenience, health and pleasure of the community, I do not deem it wise to increase the payments by the City under mandamus proceedings.

Respectfully,

SAMUEL H. ASHBRIDGE,

Mayor.

APPENDIX No. 20.

Philadelphia, May 15, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Highways, to whom was referred the ordinances to authorize the opening of Hermit, Umbria, Seville, Pennsdale, Tower, St. David, Mitchell, Gates, Rector, Waverly, Sixty first, Sansom, Cumberland, Twenty-third, Twenty-fifth and Eleventh streets and Springfield avenue, beg leave to report that careful consideration has been given to the question of opening streets, and only such streets as are deemed of public necessity have been reported. It is believed that all of these streets excepting Hermit, Seville, St. David, Gates and Eleventh streets can be opened without damage to the City. The estimated damage of Hermit street is five hundred (500) dollars; of Seville street, one thousand (1,000) dollars; of St. David street, fifteen hundred (1,500) dollars; of Gates street, one thousand (1,000) dollars, and of Eleventh street, nine thousand (9,000) dollars.

The opening of Eleventh street is badly needed to provide an outlet for a section in which improvements have been retarded for want of outlet streets. The cost of opening the street will very soon be returned to the City by reason of the increased values in property in the vicinity. The street can be opened at the present time cheaper than on any future occasion. We therefore report the ordinance with a favorable recommendation.

To the Honorable the Judges of the said Court:

The undersigned viewers appointed by your Honorable Court to assess the damages and benefits, if any, arising out of the opening of Waterloo street, from Westmoreland street to Ontario street, in the Thirty-third Ward of the City of Philadelphia, respectfully report:

That pursuant to notice served upon the viewers, registered property owners and tenants along the line of Waterloo street, from Westmoreland street to Ontario street (proof of which is filed in your Honorable Court,) the viewers held their first meeting on January 30th, 1902, in Room 381, City Hall, Philadelphia. At this meeting

the following viewers were present: Charles F. Thacher, M. F. Lobo, George F. Stringer, Charles R. Gentner, and J. M. Suydam. John L. Galloway, the other viewer, failed to attend any of the meetings.

That each of said viewers was first sworn or affirmed on his *voir dire* by one of their number and examined touching his competency to serve as a viewer in this proceeding. Each viewer having been found to be disinterested, competent, and in all respects duly qualified to serve, was then sworn or affirmed by one of their number to perform his duty as a viewer in the matter of the opening of Waterloo street from Westmoreland street to Ontario street, in the Thirty-third Ward of the City of Philadelphia. The viewers then organized by electing Charles R. Gentner, foreman. The petition for the appointment of viewers was read to the viewers, and the official plan produced for the use of the same. The said plan is filed with this report. They then adjourned to make a view of the premises affected on February 1st, 1902.

That subsequent meetings were held by due adjournment for hearing testimony, reviewing, and arguments of counsel on February 3, 10, 17, 24; March 3, 10, 13, 17, 18, 20, 24, 27, 31; April 3, 7, 10, 14, 15, 17, 21, 28 and 29, 1902; and for consultation on April 30, 1902.

That at these meetings the viewers were attended by Thomas Wagner, Jr., Esq., for Job Rutt; Messrs. Page & Page, for Charles Scherbaum, Clement Wild, Charles Koth, Margaret O'Neill and William Knox; Wm. R. Bricker, Esq., for Frank D. Cox, Charles C. Cox, Katharine S. Cox; Frank P. Buckley, Esq., for Samuel Clark and John B. Mayer. Byrnes, Carrie Wiehe, George E. Sodmann, Aaron Sobers, Jacob G. Fennemore and Lewis Weber et ux; George E. Fili, Esq., Assistant City Solicitor, for the City of Philadelphia.

That Waterloo street is authorized to be opened by Ordinance of Councils approved the 15th day of August, 1901, but is not yet physically opened.

And now, after a careful consideration of all the testimony submitted, and after a careful view and review of the lines and grades at which Waterloo street is to be opened, and considering as well the advantages and disadvantages to each and every property owner along the line of said Waterloo Street from Westmoreland Street to Ontario Street, the viewers do find and award damages as follows:

APPENDIX No. 44.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Highways, to
whom was referred the bill entitled "An Ordinance to per-
mit Henry Schadewald to lay pipes under and across Third

street, north of Huntingdon street, in the Nineteenth Ward," respectfully report that we have examined and approve the same, and submit for your consideration the annexed ordinance, and ask its passage.

Alex. M. De Haven (*Ch'n*), Jesse S. Shepard, Thos. Wagner, Jr., J. H. B. Amick, Albert Webster, W. A. Miller, Thos. J. Morton, Watson D. Upperman, W. McCoach, Edw. W. Patton, Henry R. Shoch, W. F. Short, R. F. Schofield, Peter E. Costello.

AN ORDINANCE

To permit Henry Schadewald to lay pipes under and across Third street, north of Huntingdon street, in the Nineteenth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That permission be, and is hereby granted to Henry Schadewald to lay a pipe, not exceeding twenty-four inches in diameter, to contain pipes for the conveyance of water and steam, under and across Third street, about sixty-five feet north of the north building line of Huntingdon street. The said pipes shall be laid in accordance with plans and specifications approved by and under the supervision of the Department of Public Works. Before exercising any privilege under this ordinance the said Henry Schadewald shall file an agreement, satisfactory to the City Solicitor, indemnifying the City against all damages by reason of the construction and maintenance of said pipes, and to pave and keep in repair that part of the street broken whenever called upon to do so by the Director of the Department of Public Works. The privilege hereby granted shall be revocable at any time upon the passage of a resolution or an ordinance to that effect: *Provided*, That the sum of fifty (50) dollars be first paid into the City Treasury by the said Henry Schadewald for printing this ordinance.

APPENDIX No. 45.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Highways, to whom was referred the ordinances to authorize the opening of Montgomery, Horrocks, Dittman, Pratt, Haworth, Pine, Hoopes, Fifty-first, Somerset, Cambria, Twenty-third, Twenty-fourth, Twenty-fifth and Seventy-second streets, beg leave to report that Horrocks, Pine, Hoopes and Fifty-first streets can be opened without any damage to the City.

The estimated cost of opening Montgomery street is fifteen hundred (1,500) dollars. The street is opened to the eastward and westward of the points mentioned in the ordinance and the half block to be opened is for the purpose of connecting the two opened portions.

The opening of Dittman, Pratt and Haworth streets are estimated at four hundred (400) dollars each; the streets at the present time being actually in use, excepting very small portions, which ought not to cost more than the amount named.

Somerset, Cambria, Twenty-third, Twenty-fourth and Twenty-fifth streets are on the plan sixty feet in width, and the owners of the property through which these streets will run are willing to waive damages for fifty feet of the street, but think as the widening is for the benefit of the traveling public they should be paid for the additional ten feet. As no improved property is erected in the bed of the streets, the damage should be slight.

The damages for opening Seventy-second street are estimated at nine thousand (9,000) dollars; several frame houses will be destroyed in the opening. The location of the street is in a very badly congested section and should be opened for the benefit of a large number of people who are now compelled to travel considerable distance to reach the railroad station. We therefore report the annexed ordinance with a favorable recommendation.

Alex. M. De Haven (*Ch'n*), Jesse S. Shepard, Thos.

Wagner, Jr., J. H. B. Amick, Albert Webster, W. A. Miller, Thos. J. Morton, Watson D. Upperman, W. McCoach, Edw. W. Patton, Henry R. Shoeh, W. F. Short, R. F. Schofield, Peter E. Costello.

AN ORDINANCE

To authorize the opening of Montgomery, Horrocks, Dittman, Pratt, Haworth, Pine, Hoopes, Fifty-first, Somerset, Cambria, Twenty-third, Twenty-fourth, Twenty-fifth and Seventy-second streets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Director of the Department of Public Works be authorized to notify the owners of property over and through which the following streets will pass, that at the expiration of three months from the date of said notice said streets to their full width as now on the City plan will be required for public use, viz.: Montgomery street, from Hancock to Second street; Horrocks street, from Arrott to Harrison street; Dittman street, from Bridge to Plum street; Pratt street, from Torresdale avenue to Jackson street; Haworth street, from Torresdale avenue to Glenloch street; Pine street, from Sixty-first to Sixty-second street; Hoopes street, from Fifty-first street to a point about one hundred feet westward; Fifty-first street, from Parrish street to Westminster avenue; Somerset street, from Twenty-second to Twenty-sixth street; Cambria street, from Twenty-third to Twenty-fifth street; Twenty-third, Twenty-fourth and Twenty-fifth streets, from Lehigh avenue to Cambria street; Seventy-second street, from Woodland avenue to Paschall avenue.

SECT. 2. The Mayor of the City is hereby authorized and directed to enter security on behalf of the City of Philadelphia for the payment of any damages which may be assessed by reason of the opening of said streets; upon the filing of said bonds, and at the expiration of the said three months, the Director of the Department of Public Works shall forthwith proceed to open said streets.

APPENDIX No. 48.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the ordinance to amend ordinance approved July 6, 1898, entitled “An Ordinance to authorize the striking of Locust street, from Thirty-third to Thirty-fourth street, from the City plan,” beg leave to report that both sides of this street are owned by the University of Pennsylvania. As the only municipal improvements in said street are a twelve inch pipe sewer and a water pipe, which are used only by the University of Pennsylvania, no public necessity exists for the City to have access to these pipes. As the street is of no public use, there is no reason why the University should not build on the same. We therefore report the ordinance with a favorable recommendation.

APPENDIX No. 50.

Philadelphia, June 5, 1902.

APPENDIX No. 51.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to place Old York road upon the City plan, between Windrim avenue and Olney avenue, and to revise the lines and grades of streets between Windrim avenue and Chew street, and between Broad and Twelfth streets, affected thereby,” beg leave to report that Old York road, being a public highway, and probably always remain so, should be on the City plan. As the street will be placed on the plan in practically the same line as at present open, no damage can arise by reason of the placing of the street on the plan. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'u*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the ordinances to place on the City plan Camac, Webb, Lee, Percy, Lewis, Hollywood, Newkirk, Dover, Lawrence, and Grant streets, beg leave to report that provision has been made for placing these streets on the City plan without damage or expense to the City excepting in the case of Grant street. As the proposed lines of Grant street is generally through farm lands and along the line of roads now open, the cost of opening the street will be comparatively small. As the territory is entirely undeveloped, the improvements will naturally follow this main street. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'u*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jes. P. Hughes, G. W. Young.

Common Councils of the City of Philadelphia.

and Vankirk street, in the Thirty-fifth Ward," beg leave to report that a general revision is authorized in all the adjacent territory excepting the portion covered by these two plans. It is desirable that this portion be revised and laid out and established in conformity with the adjoining plans. The proposed revision contemplates a nearer conformity to the physical condition. The opening and grading of streets will therefore be less expensive and conduce to the better development of properties. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'u*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

to report that the streets in the territory mentioned can be adjusted in order to get more space for manufactories. As the changes can be made without damage to the City, we report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

APPENDIX No. 55.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to re-

vise the grades of Clarissa street, between Hunting Park avenue and Brunner street, and of such other streets intersecting Clarissa street between the points named, as may be affected thereby," beg leave to report that the revision is necessary to obtain more clearance over the tracks of the Richmond Branch of the Philadelphia and Reading Railway. As the change can be made without damage to the City, we report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

APPENDIX No. 56.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of City plan No. 264, bounded by Krewstown road, Starkey street, Nester street and Pennypack street, in the Thirty-fifth Ward,” beg leave to report that since this plan was prepared, in 1871, the Philadelphia, Bustleton and Trenton Railroad has been projected and the plan to the north revised to conform to the new conditions. To better adapt the lines and grades to the topographical conditions it is advisable to revise the lines and grades on this plan, the streets can be so revised that it would be much less costly for their development than if the present plan is adhered to. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

AN ORDINANCE

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to revise the lines and grades on City plan No. 264, bounded by Krewstown road, Starkey street, Nester street and Pennypack street, in the Thirty-fifth Ward.

Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of Frankford avenue, between Stanwood and Hoffnagle streets,” beg leave to report that Frankford avenue is the main avenue of travel between Philadelphia, Bristol and Trenton. The lines and grades of the avenue can be revised in order to make a very much better street between the points mentioned. As this work can be done cheaper at the present time than in the future, it should be commenced at once. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

APPENDIX No. 58.

Philadelphia, June 5, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the ordinance to revise the curb lines on Frankford avenue, between Solly street and Poquessing Creek, on the Bustleton and Somerton turnpike, between Nester and Lott street and on Plum street, between Hedge and Mulberry streets,” beg leave to report that it is desirable to readjust these curb lines so as to give more cartway space. Very little of the curb on these streets is set at the present time and that which is set is on the new proposed lines. As the improvements will be made to the adjusted lines no possible damage will arise by the passage of this ordinance. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch’n*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

Since their completion numerous changes have taken place in this territory. It is necessary that new plans shall be made showing the present conditions embraced on many separate plans as well as to perpetuate and perfect the present plans. As the changes on the plan will correspond to the present conditions no damage will be occasioned by the passage of the ordinance. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Chm*), Geo. B. Edwards, Samuel Crothers, Saml. K. Stinger, Thomas S. Wiltbank, Basil H. Brown, C. H. Johnson, Frank Weideman, George W. Conrad, Bennett L. Smedley, Geo. W. Sunderland, Jas. H. Wilkes, Jos. P. Hughes, G. W. Young.

REPORT OF VIEWERS.

Filed May 31, 1902.

To the Honorable the Judges of the said Court:

The undersigned viewers appointed by your Honorable Court to assess the damages and benefits, if any, caused by the widening of Chestnut street, north side, from a point northwest corner of Fifteenth and Chestnut streets, to a point one hundred and thirty-two feet west therefrom, in front of premises belonging to William F. Forsyth, petitioner, respectfully report:

That after due notice the following viewers, viz.: Charles O'Neill, John O'Donnell, Horace Yardley, Amos Bonsall, James C. Shedwick and William S. Blight, met on April 10, 1902, at 2 o'clock P. M., in Room 571, City Hall, Philadelphia, for the purposes of their appointment. They were sworn or affirmed by one of their number on their *voir dire* and examined touching their competency to act as viewers in this proceeding. Having been found duly qualified, they were severally sworn or affirmed by one of their number to perform their duties as viewers in this matter, faithfully, justly, impartially and to their best judgment. The viewers then organized by electing Wm. S. Blight foreman and Horace Yardley secretary. The petition was read and official plan produced, which is filed with this report. The viewers then adjourned to meet on the premises affected on April 11, 1902, at 2.30 o'clock P. M. The view was had, which was attended by all the viewers. By due adjournments, subsequent meetings were held on April 17, 22, 24, 29, May 6, 13, 20, 22, 25, 1902, for the purpose of hearing testimony, arguments of counsel, review and consultation, and one additional meeting for signing this report.

At the said meetings, except those held for review, consultation and signing this report, the viewers were attended by E. O. Michener, Esq., and J. Quincy Hunsicker, Esq., counsel for William F. Forsyth; Anthony M. Zane;

John H. Maurer, Esq., Assistant City Solicitor, on behalf of the City of Philadelphia, and by the witnesses for the claimant and defendant.

The claim for damages in this case was for the alleged loss of a strip of ground one hundred and thirty-two feet long on the north side of Chestnut street (fifty feet wide), extending from the northwest corner of Fifteenth street and Chestnut street to a point one hundred and thirty-two feet west therefrom, by a depth northward of five feet, which strip has been in the north sidewalk of said Chestnut strip for more than thirty years, and was free from all obstruction.

And now, therefore, after a careful consideration of the testimony, view and review of the lines and grades to which the said Chestnut street is now technically, but has for more than thirty years been physically widened in front of the premises now belonging to William F. Forsyth, and considering as well the advantages as the disadvantages by reason of the aforesaid widening, the viewers find that William F. Forsyth has sustained no damages.

All of which is respectfully submitted.

William S. Blight,

James C. Shedwick,

Horace Yardley,

Amos Bonsall,

Charles O'Neill,

John O'Donnell.

To the Honorable the Judges of the said Court:

The undersigned viewers appointed by your Honorable Court to assess the damages and benefits, if any, caused by the widening of Chestnut street, north side, from a point fifty feet west of Twelfth street to a point one hundred and four feet west therefrom, in front of premises belonging to Anthony M. Zane, petitioner, respectfully report:

They were sworn or affirmed by one of their number on their *voir dire* and examined touching their capacity to act as viewers in this proceeding. Each of them was found to be disinterested, competent, and in all respects duly qualified to serve. The said viewers were then severally sworn or affirmed by one of their number to perform their duties as viewers in above matter faithfully, justly, impartially and according to their best judgment. The jury organized by electing Wm. S. Blight foreman and Horace Yardley secretary. The petition was read and the official plan produced, which is filed with this report. The viewers then adjourned to meet on the premises affected on April 11, 1902, at 2 o'clock P. M. The said view was accordingly had, and was attended by all of the viewers.

That subsequent meetings were held for the purposes of hearing testimony, arguments of counsel, review and consultation, on April 17, 22, 24, 29; May 6, 13, 20, 32, 24, 29, 1902, and one for signing this report. That during the progress of the case the viewers were attended by E. O. Michener and J. Quiney Hunsicker, Esqs., counsel for Anthony M. Zane; Anthony M. Zane in person; John H. And now, after a full and impartial consideration of all the testimony submitted to them, and after a careful view and review of the lines and grades to which said Chestnut street, north side, from a point fifty feet west of Twelfth street to a point one hundred and four feet west therefrom has been widened, and considering as well the advantages and disadvantages to the property of the petitioner, Anthony M. Zane, the jury do find and award to said Anthony M. Zane the sum of four thousand and fifty (4,050) dollars damages by reason of the aforesaid widening.

The viewers find that no property in the vicinity is specially benefited by said widening, and direct that the City of Philadelphia pay the damages herein awarded.

All of which is respectfully submitted.

Horace Yardley,

William S. Blight

Amos Bonsall

Charles O'Neill,

James C. Shedwick.

I disagree with the majority of the jury, and in my opinion there is no damage in this case.

REPORT OF VIEWERS.

Filed May 31, 1902.

To the Honorable the Judges of the said Court:

The undersigned viewers appointed by your Honorable Court to assess the damages and benefits if any, by reason

of the widening of Walnut street, on the south side thereof, in front of premises No. 1118 Walnut street, the property of Peter Thomson, respectfully report:

That pursuant to notice, the viewers, to wit: Edward B. Tyson, Thomas H. Maginnis, Harry D. Beaston, Edward P. Mackin, Charles Harter and William E. Gaunt, met on the 20th day of May, 1902, at 10 o'clock A. M., in Room 571, City Hall, Philadelphia, for organization. Having been duly found competent to act as viewers in this proceeding, they were sworn by one of their number to act as viewers in the above matter, faithfully, justly, impartially, and to their best judgment. The viewers then organized by electing Edward P. Mackin, foreman and William E. Gaunt secretary. The petition for the appointment of viewers was read and the official plan produced for use by the viewers, which plan is filed with this report. The viewers were attended by A. Morton Cooper, Esq., representing Axel Teisen, Esq., counsel for Peter Thomson, claimant; claimant in person, and John H. Maurer, Esq., Assistant City Solicitor, on behalf of the City of Philadelphia. The viewers then adjourned to view the premises, which was made on May 21, 1902, at 10.30 o'clock A. M. All of them were present at the said view.

That subsequent meetings were held for the purpose of hearing testimony, arguments of counsel, review and consultation, on May 23, 27, 28, 29, 31, 1902, and one for signing this report.

That these proceedings are held under the ordinance of Councils approved June 30, 1892 (Book of Ordinances, 1892, page 309) which provides as follows:

"That the Department of Public Works, Bureau of Surveys, be, and is hereby authorized to revise the City plan, so as to make the width of Walnut street, from Fifteenth street to Twenty-second street, such as shall conform with the buildings thereon erected, as the same may be deemed practicable; such width to be uniform in each block.

SECT. 2. After the confirmation and establishment of said lines, it shall not be lawful for any owner or builder to erect any new building, or to rebuild or alter the front

or add to the height of any building now erected, without making it recede so as to conform to the line established, except as hereinafter provided.

SECT. 3. *Provided*, That whenever it shall be deemed advisable to widen such street in any square where the buildings are now on the old line thereof on one or both sides of said street, or where any owner or owners fronting thereon shall desire to improve or erect a new building, then, on application of such owner or owners, legal proceedings shall be taken to set all the buildings on that side back to the established line, and extending for the entire length of the block."

The said ordinance was amended by an ordinance approved December 30, 1893 (Book of Ordinances, 1893, page 556), whereby the widening was confined to Walnut street between Sixth street and Twenty-second street.

That all the houses on the south side of Walnut street, between Eleventh street and Twelfth street, at the time of the approval of above ordinances had been erected two feet six inches in rear of the then established south building line of Walnut street.

That pursuant to provisions of above cited ordinances, the lines of Walnut street were duly revised and new plan confirmed by the Board of Surveyors on January 15, 1894, whereby the south building line of Walnut street, between Eleventh and Twelfth streets, was made to correspond with the line upon which the buildings on said south side of Walnut street between Eleventh and Twelfth streets, had been erected more than twenty-one years prior to the approval of said ordinances.

That said Peter Thomson, claimant, acquired title to the house and lot No. 1118 Walnut street, being described in his deed as having 23 feet 6 inches front on Walnut street, and a depth of 100 feet to a 5-foot wide alley, on December 12, 1901. The old building was erected in the year 1818, and was always 2 feet 6 inches in rear of south building line of Walnut street established prior to June 30, 1892. The depth actually occupied by the building was 97 feet 6 inches of 100 feet mentioned in the deed, the other 2 feet 6 inches were in the sidewalk.

and have been in the sidewalk for more than twenty-one years prior to the approval of the ordinances heretofore mentioned. There was a step of ordinary size projecting from the house into the sidewalk, but no other obstruction. On January 14, 1902, the old building was torn down and Thomson was obliged to erect his new building on the same line upon which the old building had stood for many years, although his deed called for 2 feet 6 inches in front of his present house line to the old established south building line of Walnut street, between Eleventh and Twelfth streets, which said 2 feet 6 inches have been in the sidewalk for many years. The said 2 feet 6 inches were paved as part of the sidewalk except where the steps projected from the house.

The claim in this case was for the loss of the strip of ground on the south side of Walnut street 23 feet 6 inches wide east and west by 2 feet 6 inches depth southward, which strip has been in the sidewalk and voluntarily relinquished by the owner when he built his house in 1818.

And now, after a careful consideration of the testimony, view and review of the lines and grades to which Walnut street, between Eleventh and Twelfth streets is technically but not physically widened in front of premises No. 1118 Walnut street, and considering as well the advantages and disadvantages by reason of said widening, the viewers find that the said Peter Thomson is not damaged.

All of which is respectfully submitted.

Edward P. Mackin,	H. D. Beaston,
William E. Gaunt,	Charles Horter,
Thomas H. Maginnis,	Edw. B. Tyson.

GENTLEMEN:—We, your Committee on Highways, to whom was referred the ordinances to authorize the opening of Dupont, Fountain, Amber, Silver, Martha, Twentieth, American, Ella, and Wakeling streets, Summerdale and Saybrook avenues, beg leave to report that the opening of Dupont street is estimated to cost five thousand (5,000) dollars; a brick house is constructed in the bed of the street, which will have to be removed. APPENDIX No. 87.

Philadelphia, June 26, 1902.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the ordinance to pay for the construction of sewers in Musgrave, Silverwood and Thirtieth streets, beg leave to report that the sewers in Musgrave and Silverwood streets were constructed in front of narrow strips of ground not worth the cost of the sewers; the depth of the lots being about two feet. At the time the sewer in Thirtieth street was authorized the records of the Survey Bureau showed the street had been opened for a period of twenty-five years. When the sewer contractor attempted to collect the bills it was ruled that Thirtieth street had not been opened and therefore the bills were invalid. As the work in each of these cases was done in strict accordance with the contract, the City having received full value for the money, the bills should be paid. We therefore report the ordinance with a favorable recommendation.
